### Living Stages of Inner Development

at the Los Angeles Branch of the Anthroposophical Society  
110 Martin Alley Pasadena, CA 91105 (626) 795-7105

Friday, October 26, Open Talk at 8pm

Saturday, October 27, Workshop 9:30am–12:30pm & 2–5pm

**Description:** The inner work provides accessible insights into the workings of the human soul and evolves our inner capacities to transform our outer lives. By building a bridge between the spiritual and the earthly, our meditative life supports unfolding soul capacities and deepens understanding. This workshop examines the various stages of inner development and offers examples of the most practical exercise for each step along the path.

*“Every step an individual takes affects the collective development of humanity. The world we experience now is a result of the inner work of past generations. By consciously working to understand and experience our connection to the higher worlds, we are more able to fully realize and contribute to the higher unfolding of humankind.” – Lisa Romero*

\$20 suggested donation for the talk only or \$50 for both Friday and Saturday.
